Empowering people with impaired mobility to reach their full potential

Mobility – Empowering Elderly

Saeed Zahedi

THE LONG TERM CARE
REVOLUTION

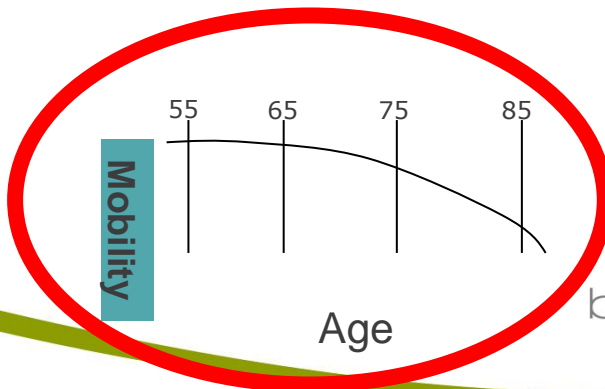

125
YEARS

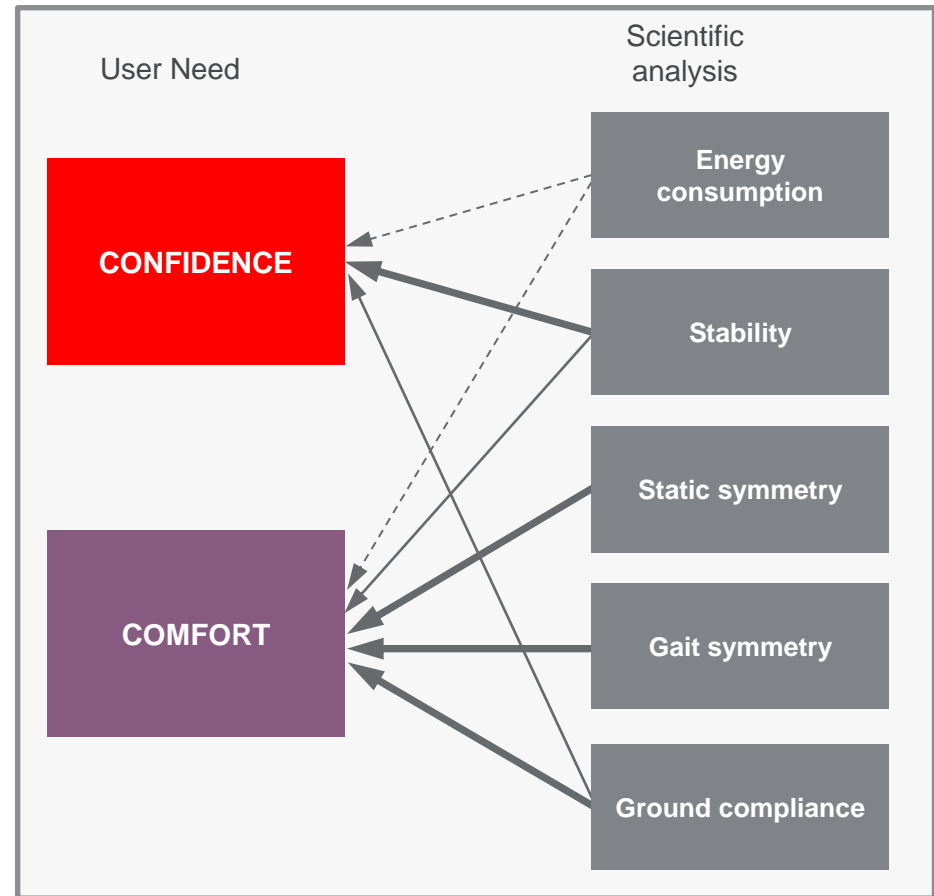

Real Living – Real Ability

- Loss of lower limb function and power
- Maintaining mobility and balance
- Social Care of Disability due age
- Long term care NHS and Social services
- Away from Hospitals, prevent Falls
- Factories of Future

Assistive Health Technology Products

- Advances in AHT and Product go hand in hand with evolving regulatory needs
- The process of **verification** must meet strict safety requirements and **validation** on users to ensure the appropriate **benefits** are delivered safely and efficiently at affordable cost
- The **economics of Health care** are intertwined with the need for clear and demonstrable clinical evidence of outcome measures

Thank you
